

## ***FLOOD ACTION RESILIENCE IN TIFFIELD***

In the last year West Northants Council has re-invigorated their drive to recruit more flood wardens across the county, and we now have two further wardens in the village who have attended a recent course.

The Parish Council has been asked to help some residents whose properties are particularly vulnerable to frequent flooding, and plans are in place to install barriers before autumn.

Along one side of the Eastcote Road some ditching work has been done by landowners and hopefully more will be completed this year.
